ProSoundbar

Active Speaker for Meeting Rooms

VLSPSB100 Professional Stereo sound bar for meeting and conference rooms.
 – Standby (ECO) function (0,5W in standby mode)

PROFESSIONAL SPEAKER WITH POWERSAVING STAND-BY FUNCTION

The PROSOUNDBAR is a powerful active stereo speaker system suitable for meeting and conference rooms. Despite the compact design, the PROSOUNDBAR delivers excellent sound using 4 speaker units and 2 passive bass units. ECO function with silent mute combines low power consumption with silent switching on/off.

The PROSOUNDBAR comes with wall mounts for nice fitting under the screen. It can also hang in VESA brackets on screen.
